THE MAGAZINE OF OPPOSING VIEWS

Executive Registry
77-4475

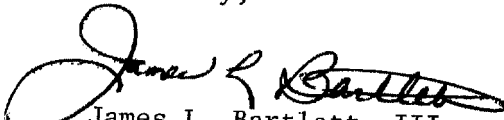

Dear Fellow Citizen:

Because of your interest in public policy questions, we thought that as a way of introducing ourselves we should send you a complimentary copy of SKEPTIC -- the new, non-partisan current affairs magazine.

SKEPTIC is created six times a year by a small group of editors and artists in Santa Barbara, California. Each issue offers a broad spectrum of views -- from the most provocative writers and thinkers -- about the leading questions of the day. As you thumb through the pages of this issue, you may be surprised to see how lively a magazine of thought and opinion can be. While SKEPTIC is serious, it's anything but drab, thanks to high-quality design and lavish use of full-color graphics. I think you'll find SKEPTIC a lively new environment for great debates.

I have added your name to our complimentary list so that you will receive the bimonthly issues on a regular basis. I do hope that you enjoy SKEPTIC and that you find it helpful in your work and study.

Sincerely,

James L. Bartlett, III
Publisher

P.S. If you have the time, we would very much like to hear your thoughts about SKEPTIC and your reaction to the issues presented in the magazine.
